GECLOSE2EU

PROJECT CATALOGUE OF
BENEFICIARY COMPANIES

INFORMATION
AND COMMUNICATION
TECHNOLOGY (ICT)

The project GEclose2EU is implemented by the Economic Policy Research Center (EPRC) in cooperation with Enterprise Georgia Agency.

This catalogue has been produced with the support of Sweden.

This catalogue unites information about 15 Georgian companies working in the field of Information and Communication Technology (ICT). Purpose of this catalogue is to increase visibility and awareness about Georgian companies on European markets, help them promote their work on the international markets.

Service industries play a significant role in economic development of Georgia, especially intellectually abundant industries. The ICT sector is believed to have a high export potential of expansion on international markets.

ABOUT THE PROJECT

The Economic Policy Research Center (EPRC) in partnership with Enterprise Georgia Agency and with the financial support of the Government of Sweden implements a project - GEclose2EU (Georgian Business Close to Europe). The project runs for three years (2018-2021) and aims to support SMEs in Georgia, to increase their visibility on European markets and create new opportunities for their internationalization.

ZEG (MICROELECTRONICS)

The first individual eco-friendly transport company focused on addressing the problems of daily commuting in the city.

ZEG is the nearest future, and the future belongs to individual transport.

Change is on its way! E-mobility is becoming the hottest trend as people have become highly conscious of the increasing threat to the environment due to CO2 emissions and pollution. Undoubtedly, going green is not going to fade anytime soon.

- In June 2019, www.escooter.ge was launched
- In December 2019, a showroom and a service center were opened

Currently the company is developing a sharing platform for Kick scooters. ZEG works towards providing the public with a fast and convenient mode of transport for last-mile mobility in urban Tbilisi.

ABOUT EPRC

The Economic Policy Research Center (EPRC) is a unique think-and do-tank that brings to light the most pressing economic issues confronting society and provides thorough analysis on economic issues, offers evidence-based recommendations as well as it encourages stimulating public debate and education.

EPRC was established in 2002 and from the very beginning has played an active role in linking civil society and the public sector, providing guidance and advice in various fields of public policy, budget oversight, and monitoring the implementation of the major state and donor-funded programs. Since its foundation, EPRC has strived to enhance the quality of economic policy-making in Georgia by fostering high quality, policy-relevant economic research, and disseminating it widely to decision-makers in the public and private sectors.

Throughout the past years, EPRC has earned a reputation of an objective, reliable and non-partisan source of information on the issues related to economic, financial and social policies. EPRC actively encourages diversity of opinion and independent thought in its network, with the result that EPRC output reflects out-of-the-box thinking on a range of perspectives, helping to enrich and enliven policy debates.

OUR MISSION

EPRC aims to improve the welfare of citizens through expert guidance from decision makers in various issues of economy, capacity-building of public institutions, and civil oversight of budgetary expenditures.

WHAT WE DO

ENGENDERING THE IDEAS - Generating policy recommendations based on global experience, substantiated by objective and technically sound research and analysis, and fine-tuned to reflect Georgia's reality.

DEVELOPING CAPACITY - Strengthening of capacity of civic institutions, government agencies and the media for effective engagement in the economic policy-making and budgetary processes; empowering the general population with innovative tools to take an active part in the country's economic life.

ENSURING CIVIL OVERSIGHT - In partnership with a range of CSO representatives, monitoring reports and analysis of key governmental programmers and budgetary expenditures are produced.

ABOUT ENTERPRISE GEORGIA

In June 2014 the Ministry of Economy and Sustainable Development of Georgia, together with the Ministry of Agriculture, launched a new government program “Produce in Georgia.” The program’s objective is to promote an entrepreneurial culture throughout the country by stimulating the establishment new enterprise and supporting the expansion of existing operations.

Enterprise Georgia is the key implementing partner of “Produce in Georgia” and is responsible for business support, export promotion and investment in Georgia sectors.

The Business division of the agency promotes entrepreneurial activity in Georgia by supporting entrepreneurs - assisting with the creation of new enterprises as well as the expansion and refurbishment of existing enterprises. The Export division promotes the export potential of the country by increasing the competitiveness of local products and the overall volume of goods directed towards international markets. The Invest division’s primary role is to attract, promote and develop direct foreign investment in Georgia. As the moderator between foreign investors and the Government of Georgia, the Invest division ensures access to updated information, provides an efficient means of communication with Government bodies, and serves as a “one-stop-shop,” supporting investors throughout the investment process.

ENTERPRISE GEORGIA – BUSINESS

As part of the Produce in Georgia program, the Business division promotes and supports the development of new enterprise as well as the expansion of existing operations by providing financial assistance to the entrepreneurial community.

ENTERPRISE GEORGIA – EXPORT

The primary objective of the Export division is to promote the export potential of Georgian enterprises. This is achieved by helping operators improve their overall competitiveness and increase the volume of goods directed towards international markets. To achieve these goals, Produce in Georgia supports the following activities

INTERNATIONAL EXHIBITIONS

- ▶ Provide coordination, organization and co-financing of B2B exhibitions, helping Georgia-based companies make new business connections, identify potential partners, diversify production and penetrate new export markets.

TRADE MISSIONS

- ▶ Provide planning, organization and co-financing of B2B meetings for Georgian exporters, helping them find new partners, diversify production, and penetrate new export markets.
- ▶ Based on the demands addressed to Produce in Georgia from international stakeholders, connect foreign buyers with Georgian producers.
- ▶ Registering companies on Produce in Georgia's interactive trading platform www.tradewithgeorgia.com, promoting Georgian products and services to international audiences.
- ▶ Provide detailed information associated with the documentation and certifications necessary for exports from Georgia, including customs procedures and tariffs in foreign markets.
- ▶ Provide education, training, and increase the professional capacity of export managers working with export-oriented companies within Georgia.
